

Agreement of Collaboration
between
The Technical and Vocational
Education and Training Authority
and
The Women's Foundation
Organization

Year: May 2022

Preface

Education and training are the basis of individual and social capacity building. Therefore, this agreement was signed with the Womanity Foundation organization to increase the capacity of teachers and students and to equip computer labs in the Computer Technology Institute.

Womanity Foundation Organization

The Womanity Foundation is an international non-governmental, non-political, non-profitable organization located in Geneva, Switzerland. The Ministry of Economy's monitoring commission of non-governmental organizations registered it with No# 376 on 2012/01/11 as a foreign organization and allowed it to operate in the country. The organization must comply with all rules and regulations of the country and present its reports to the Ministry of Education and Ministry of Finance every six months and yearly, as well as pay taxes. The organization is obliged to follow the rules and regulations of NGOs.

A Brief Introduction to Womanity Foundation Organization Programs at Computer Technology Institute

The activities of the Womanity Foundation Organization at the Computer Technology Institute are divided into four parts. Those programs which were implemented by the organization at girl's schools under the name of "Girl Can Write Code" for female students must be implemented at the Computer Technology Institute. According to this agreement, a capacity-building program for teachers must also be held.

The goal of this organization is to collaborate with TVET-A, as it has done with the Ministry of Education in the past. This means vocational capacity building of female students, equal to the labor market needs, and after graduation, registration to their favorite fields. The Womanity Foundation organization aims to train female students of 13th and 14th grades in their fields, and also train teachers of the institute in fundamental needs of developed technology.

While personal teaching conditions are prepared, online education must change to personal teaching.

Based on this agreement, the following must be implemented:

1. Teaching of female students of the 13th and 14th grades based on institute proposed issues
2. Training of Computer Technology Institute Teachers at the institute proposed issues
3. Equipping four computer labs of the Computer Technology Institute for students' use
4. Marketing for the graduated students of the Computer Technology Institute and hiring them

Education of 13th and 14th Grades Female Students

Collaboration with Computer Technology Institute, Woman Foundation Organization, teach those 13th and 14th-grade students of the Computer Technology Institute who have access to a computer at home. In the future, according to the opportunity, it will change to personal teachings.

Generality

Goal

Capacity building of teachers, female students, equipping computer labs, and collaboration at the hiring of graduated students.

Implementation Area:

The Computer Technology Institute is located in the 7th district of Kabul city.

Availability of the Agreement:

This agreement is valid for six months after the designation of both sides. According to both sides' satisfaction, it is changeable and extendable.
